Project

The Wild Oasis: A modern hotel management system 🔗 (Feb 2024 - April 2025)

- Wild Oasis is a modern web application that simplifies hotel management by providing an intuitive and user-friendly interface to handle all your essential operations. Whether you're managing bookings, tracking guest details, or organizing cabin availability, Wild Oasis offers a seamless experience designed to boost efficiency and reduce manual work.
- **Tools Used:** React, React-router, React-query, Supabase, Styled Components, Recharts

Fast Pizza: A modern pizza ordering application 🔗 (Nov 2024 - Dec 2024)

- Fast-Pizza makes ordering your favorite pizzas easier than ever with a seamless, user-friendly experience. Browse a wide selection of delicious pizzas. Track your orders in real time.
- **Tools Used:** React, Redux, React-router, Tailwind

MovieSite: Your ultimate review Hub 🔗 (July 2024 - Jan 2025)

- MovieSite is your ultimate destination for recording your thoughts about various movies. You can search for all movies available on IMDB and share your thoughts to people around the world.
- **Tools Used:** Node.js, Express, Mongoose, Pug, CSS, JWT, Axios

Natours: A tour Booking application 🔗 (July 2024 - Nov 2024)

- Developed and launched a dynamic tour booking application that streamlines the user experience, allowing customers to seamlessly browse, book, and manage travel packages. Integrated secure payment gateways, interactive maps, enhancing user engagement and operational efficiency.
- **Tools Used:** Node.js, Express, Mongoose, Pug, CSS, JWT, Axios
